# ADVENTURE INSPIRED

Enduristan cannot be found on any map, but when the daily grind is left behind and the adventure begins, that is when you realise you are there. When we travel through Enduristan the horizon is clear, the colours are bright, life feels good and we are free.

We, at Enduristan, engineer and manufacture first class motorcycle luggage. For us, off-road travelling has been a fixed part of our lives for years and all our developments are based on this rich pool of experience.

No matter if you are crossing the Sahara, riding in Siberia or rushing down Gunbarrel Highway in the remote Australian outback, Enduristan luggage is your ideal companion. Innovative details and top quality designs ensure our products are always ready for your adventure.

Safe Travels

David, Christoph and Isabel

Founders of Enduristan, Switzerland

**ENDURISTAN**  
WHEREVER YOU RIDE

# RIDING YOUR **DREAMS**

In Enduristan life is sometimes hard: the bush extends onto the track, the creeks are precariously deep and not every slip-up can be avoided. This is all good though if your luggage can endure these adventures just as the Enduristan Saddlebags can do!

After a day riding in apocalyptic downpours you will be sure to enjoy discovering some dry clothes nestled within your Blizzard Saddlebags or Monsoon 3 Panniers.

**BLIZZARD**  
**SADDLE BAGS**

**ENDURANCE**  
WHEREVER YOU RIDE

# BLIZZARD

## SADDLEBAGS

### MODULAR LUGGAGE SYSTEM

#### Adapt it to your needs

You do not carry the same stuff if you are out for a tough weekend in the mountains with your hard enduro or

if you are on a leisure trip with your touring bike, right? That's why we choose a modular approach for the Blizzard Saddle Bags.

On the underside of your Blizzard Saddle Bags, the two compression straps can easily be converted into an

interface to attach a Bottle Holster or a Fender Bag (size M or L only). Like this you can add 2 x 1.5 liter additional volume, 2 x 1 liter fuel or a combination of both.

On top of the Blizzard Saddle Bags, there is placement to attach two more Bottle Holsters to increase the range of your hard enduro.

The rear of your bike remains free to attach a Tornado 2 Pack Sack. If you are planning on going out into the wild, you can choose a Rally Pack or any XS Base Pack, in order not to limit your freedom of movement.

## TOUGH RIDES

### TOUGH LUGGAGE

#### Made for the beaten tracks

The Blizzard Saddle Bags feature an innovative shape, which will not restrict your movement whilst riding off road. If you lean to the rear during steep descents, the bags will not interfere with your calves. The bags will not get entangled in the scrub, since there are no unnecessary straps on the outside of the bags. Last but not least, they are made of our extremely durable 3-layer fabric, all straps are double stitched and the front straps' buckles are good for up to 225kg.

## NO RACKS

### REQUIRED

#### Saving weight taken seriously

Let's face it: It's no use to buy an expensive new carbon muffler just because it is a few kilos lighter than the original one and then attach heavy

steel pannier frames and jeopardise the weight gain completely. The Blizzard Saddle Bags do not require any racks. Just make sure you load the heavier items on the non-exhaust side (where there is only one exhaust) and use an Inferno Heat Shield if required.

## BLIZZARD

### FEATURES

- Does not require rack
- Fits any enduro or adventure bike
- Red inner lining for high visibility
- 4 compression straps per bag
- 2 rows of cargo loops to attach additional gear
- 4 interfaces to attach Bottle Holsters
- 2 interfaces to attach Fender Bags (size M and L only)
- Ergonomic soft grip handles

## TECHNICAL

### DETAILS

#### Blizzard Saddle Bags

**Volume:** (S) 12 liter, (M) 17litre, (L) 24litre

**Dimensions (S):** approx. 36 x 24 x 9cm (per bag)

**Dimensions (M):** approx. 30 x 24 x 12.5cm (per bag)

**Dimensions (L):** approx. 30 x 24 x 18cm (per bag)

**Weight:** approx. 1.5kg (complete set)

# MONSOON 3

## PANNIERS

### EXPLORING THE WORLD

#### Secure Positioning

Monsoon 3 fits many adventure bikes without the addition of pannier frames, thus keeping the bike narrow and the weight close to the center.

With elasticated ROKstraps the bags remain safely in place even under the most extreme off-road riding conditions. For bikes without a rear fairing, a frame mount kit is separately available.

*Enduristan Monsoon 3 secure fitting.*

### NO RIVER TOO DEEP

#### Waterproof

With an all-welded design, waterproof 3-layer fabric and rolltop closure the Monsoon 3 Saddle Bags are 100% water, mud, snow and dust proof.

Even if your bags are busting the Enduristan rolltop helps you neatly close them without hassle or fuss. Simply overlap the two plastic strips over one another and roll.

*Enduristan Monsoon 3 overlap system.*

*Enduristan Monsoon 3 -  
4 Layer protection system.*

*Enduristan Monsoon 3 attached to  
pannier rack BMW 1200 GS.*

# STRENGTH

WHEN YOU NEED IT

## Enduristan 4 Layer Protection:

**Wear Protection:** The outermost layer of the 3-layer fabric is made up of heavy duty polymer which acts as superior wear protection. With an all-welded design it makes the Monsoon 3 even tougher.

**Tear protection:** The middle layer consists of 1000D Nylon mesh which is dense woven yet flexible to allow the 1000D Nylon filaments to align in the direction of the stress.

**Water protection:** The innermost layer of the 3-layer fabric is made out of a red polymer for perfect visibility and is 100% waterproof. Unlike hard panniers, the rolltop closure does not permanently bend in the case of a crash, keeping your items fully waterproofed.

**Impact Protection:** At the front, underneath and at the rear we have added a high impact plastic to protect the contents of your bags from loose gravel and surprise branches.

# MONSOON

FEATURES

- Red inner liner for high visibility
- 2 fold-away separators per bag
- Holds up to 6 isolation bags
- 2 rows of cargo loops per bag
- Soft grip handles
- 3 compression straps per bag

**Dimensions:** (15 litre): approx. 36 x 20 x 24cm (per bag)

**Dimensions:** (30 litre): approx. 36 x 25 x 33cm (per bag)

**Weight:** approx: 3.0kg (complete set)

*KTM 990 Adventure with the Enduristan Monsoon 3 Saddlebags connected without pannier rack.*

# ACCESSORIES

## INFERNO HEAT SHIELD

### KEEPING COOL

#### Heat Protection

The Inferno Heat Shield keeps your saddle bags and side panels away from the infernal temperatures of your muffler. One or more properly installed Inferno heat shields can reliably avoid any meltdown.

### TECHNICAL DETAILS

#### Inferno Heat Shield

Length: 160mm

Width: 75mm

Weight: 120g

Distance to exhaust: 22mm

Fits exhaust diameters up to 140mm

### INFERNO FEATURES

- Anodised, high grade aluminium heat shield
- Stainless steel hose clamp

# ACCESSORIES

## BOTTLE HOLSTER

### KEEPING TOPPED UP

#### Fuel & Water

When traveling, we all need to carry water and on some occasions also extra fuel. The Enduristan Bottle Holster attaches to many different Enduristan bags and allows to carry fuel bottles as well as any other bottle.

### TECHNICAL DETAILS

#### Bottle Holster

Dimensions: approx 20 x 9cm

Max bottle diameter: 9cm

Max bottle length: 32cm

### BOTTLE HOLSTER FEATURES

- Secure pull-down strap for any type of bottle
- Also secures bottles without ring type cap
- Reflective print for better visibility
- 2 drain holes in the floor
- Can be attached to Blizzard Saddle Bags (4 different positions), Monsoon Panniers or Tornado Pack Sacks

# ACCESSORIES

## SMALL PARTS ORGANISER

### KEEPING ORGANISED

#### Keep track of your items

Today we travel with chargers for our various electronic gear such as smart phones, tablets, GPS, cameras etc. We need a place for all the memory cards, the different cables, special camera equipment and different batteries. Having developed the new Small Parts Organiser, your search is now over.

### TECHNICAL DETAILS

#### Small Parts Organiser

Volume: 2 liter

Dimensions: approx. 20 x 15 x 8cm

### ORGANISER FEATURES

- Red inner lining for high visibility
- 7 inside zipper pockets
- 3 of the zipper pockets are mesh pockets for instant recognition of the content
- 53 elastic loops in 7 different dimensions
- Handy hanger loop
- Large white labeling area on top cover
- Additional labeling field next to outside handle

# ACCESSORIES

## ISOLATION BAG

### ORGANISE WITH EASE

#### Keep Track Of Your Belongings

The Isolation Bags help you to keep your belongings organised.

The bags reliably isolate:

- Food from leaking fuel stoves
- Fresh clothes from dirty socks
- Engine oil from your sleeping bag
- Anything else you wish to keep separated

### ISOLATION BAG FEATURES

- 7.5l volume
- 100% waterproof
- Resistant against oil and petrol

# DOING IT **RIGHT**

When travelling we always desired a well thought out enduro tankbag which was rock-solid seated yet easy to remove. Apart from that, it should be made of the most robust zippers and top quality materials. Sadly, we could not find one.

That is why we founded Enduristan back in 2008 to make one ourselves. In the course of doing this we invented the Expandable Volume Technology to give you the freedom to adjust your tankbag to any desirable volume without restrictions. Today we are proud to offer you the Sandstorm 3 line which marks the latest development step of our legendary Sandstorm Tankbags.

# SANDSTORM

TANK BAGS

**ENDURISTAN**  
WHEREVER YOU RIDE

# SANDSTORM

## TANK BAGS

### KEEPING YOUR GEAR DRY

#### Waterproof

With Waterproof 3-layer fabric, a zipper covered on the rear and an all welded design the Sandstorm's main compartment remains 100% waterproof. You do not require any rain cover and there is no inner bag you additionally need to open. The side pockets are also protected by water repellent zippers.

### HOLD ON TIGHT

#### Firm Positioning

Elastic ROKstraps ensure your Sandstorm Tankbag stays firmly in place even under the most extreme off-road riding. Quick release buckles allow easy refuelling and fastening.

*The Sandstorm tankbags are 100% waterproof*

*ROKstraps ensure a firm fit on rough terrain*

## ORGANISE YOUR GEAR

### Pockets and Holding Loops

From experience we know how important it is to keep all those small items under control. For this reason every Enduristan tankbag features a detachable pocket under the cover to store your important documents. A fold-away separator allows you to divide the main compartment when needed and various holding loops and zipper pockets are ready to store flashlights, tools and camera equipment.

*Most Sandstorm tankbags allow to continuously adjust their volume*

## EXPANDING YOUR HORIZONS

### Expandable Volume Technology

Thanks to our patented Expandable Volume Technology, the tankbag's volume is fully adjustable to any required size.

# SANDSTORM 4

## ADVENTURE

### TECHNICAL DETAILS

**Volume:** 13-20 liter fully adjustable

**Dimensions:** approx. 38x25x25cm

**Weight:** approx. 2.3kg

### SANDSTORM 4

## ADVENTURE

#### Sandstorm 4 Adventure

Riders of the BMW R 1200 GS LC or the new KTM Adventure Models will love this fully waterproof and continuously expandable tankbag! It snugly fits the curved shape of large adventure bikes and of course comes with all the handy features you are used from Enduristan.

### SANDSTORM 4A

## FEATURES

- Large waterproof map pocket (35 x 24 cm)
- Red inner lining for high visibility
- Waterproof cable ducts to main compartment and map pocket
- 1 fold-away separators in the main compartment
- 1 zipper pocket on the separator
- 1 zipper pocket in the main compartment
- Various holding loops in the main compartment
- Removable document pouch under the cover with pen holder, mesh pocket and key ring
- 1 detachable outside pocket with holding loops and mesh pocket
- Outside pocket feature opening to loop your belt through

# SANDSTORM 3

## ENDURO

### TECHNICAL DETAILS

**Volume:** 13-20 litre fully adjustable

**Dimensions:** approx. 35x25x18/27cm

**Weight:** approx. 1.5kg

### SANDSTORM 3E FEATURES

- Large waterproof map pocket (32 x 27 cm)
- Red inner lining for high visibility
- 1 fold-away separators in the main compartment: Fold it in to divide your bag, fold it away to have one large compartment
- 2 large holding loops for bottles or lenses in the main compartment
- 3 small holding loops in the main compartment
- Removable document pouch under the cover with pen holder
- 2 outside pockets with holding loops and mesh pocket

## SANDSTORM 3

### ENDURO

The successor of the legendary Enduristan Sandstorm 2: 100% waterproof main compartment, redesigned and with a great deal of handy features to make your life in the bush easy. The ideal companion for your ride in Enduristan.

# SANDSTORM 4

## HARDENDURO

### TECHNICAL DETAILS

Volume: 7 liter

Dimensions: approx. 27 x 20 x 16cm

Weight: approx. 0.9kg

### SANDSTORM 4

## HARDENDURO

Many people riding hard on tough tracks don't like tank bags for a good reason: They are often too large and get in the way. Thus Sandstorm 4H is designed without stiff reinforcement, is flexible and has an optimised shape without "nutter-effect".

### SANDSTORM 4H

## FEATURES

- Soft, unreinforced design, no "nutter-effect"
- Large waterproof map pocket (27.5x 19 cm)
- Red inner lining for high visibility
- Waterproof cable ducts to main compartment and map pocket
- 1 fold-away separator in the main compartment: Fold it in to divide your bag.
- Fold-away separator can be placed at any required position along the length of the tankbag
- 1 zipper pocket on the separator
- 1 zipper pocket in the main compartment
- Various holding loops in the main compartment
- Removable document pouch under the cover with pen holder, mesh pocket and key ring

# SANDSTORM 3

## SPORT

### TECHNICAL DETAILS

**Volume:** 7-12 litre fully adjustable

**Dimensions:** approx. 30x20x16/24cm

**Weight:** approx. 1.2kg

### SANDSTORM 3S FEATURES

- Large waterproof map pocket (28 x 19 cm)
- 1 fold-away separator in the main compartment: Fold it in to divide your bag, fold it away to have one large compartment

- Red inner lining for high visibility
- Removable document pouch under the cover with pen holder

## SANDSTORM 3

### SPORT

You asked, we listened: Being the smallest member of the Enduristan Sandstorm 3 family, the 3S is made for the narrow tanks of hard enduros and for taking the few items you need on a day trip with your adventure bike.

# FENDER BAG

## SECURE CONNECTION

### Staying Light

Attaching luggage to light sport enduros is always a challenge. For lighter items such as spare tubes, rain gear or energy bars, the fender bag is an ideal solution. The hooks allows you to pull the strap firmly for secure connection to the fender.

## TECHNICAL DETAILS

### Fender Bag

Volume: 1.6 liter

Dimension: approx. 26 x 12 x 5cm

## FENDER BAG FEATURES

- Red inner lining for high visibility
- Outside mesh pocket
- 2 outside plastic loops to attach additional gear
- 4 hook straps for secure attachment to fender
- Can also be attached to Blizzard Saddle Bags size M or L, Monsoon Panniers or Tornado Pack Sacks

*The Fender Bag can be attached to the underside of the Blizzard Saddle Bags (size M or L)*

# RALLY PACK

## VITAL EQUIPMENT

### Easy Access

Through the riders of the Enduristan Race Team we have learned that a small bag directly attached to the rear of the bike is a crucial piece of equipment to carry the very basic things needed during a rally, enduro race or event such as the Hardalpitour. So here we present the Rally Pack, optimised for fast access and best overview, your best friend when racing against the clock.

## TECHNICAL DETAILS

### Rally Pack

Volume: 3.5 liter

Dimensions: approx. 21x17x10cm

## RALLY PACK FEATURES

- Red inner lining for high visibility
- Outside mesh pocket
- Quick access through zipper
- Fully waterproof
- Large inside zipper pocket
- Additional inside mesh pocket
- 8 elastic holding loops to keep your most important items handy
- Firm and waterproof fixation to the rear of your bike

# TOOL PACK

## BE PREPARED

ALWAYS

Every adventure demands good preparation. With a well-assorted and perfectly organised tool kit you have best chances to handle any mechanical problem you may face during your ride into the wild.

## QUICK ACCESS

MADE EASY

When you need your tools, you often need them quick. The Tool Roll's red pull strap with the printed spanner stands out well from your other belongings.

## OVERVIEW

IS KEY

We all know the situation: As soon as we carefully lay down that screw on the ground it gets lost in the gravel. That is why Enduristan's Tool Roll unfolds to a large and red lay down area to keep your dismantled parts organised and well in sight. One part of it even is magnetic to make sure your stuff stays where you want it to.

# TOOL PACK

## FEATURES

- 56 elastic loops
- 2 rubber tool bit holders
- 2 large areas for dismantled parts
- Additional magnetic area
- Open inside pocket
- Zipper mesh pocket for small items
- Red inner lining for high visibility
- Secure velcro closing
- Outside pull strap with spanner logo for fast recognition and access
- Tools are not included

# TECHNICAL

## DETAILS

### Tool Pack:

**Folded:** 20cm x 13.5cm

**Unfolded:** 45cm x 78cm

# TORNADO 2

## PACK SACKS

### SAFE AND SECURE

#### Quality Tie-Downs

With fixed cargo loops dedicated for your ROKstraps the Tornado 2 Pack Sacks have a high quality and secure tie-down system.

### RIDING ALL ELEMENTS

#### Water Proof

With a waterproof 3-layer fabric, rolltop closure and an all welded construction the Tornado 2 packsack is 100% water, mud, snow and dust proof.

### EASY ACCESS

#### Simple and Quick

Large opening for superb and simple access.

# TORNADO

## FEATURES

- Inside zipper pocket
- 3 inside mesh pockets
- Red inner liner for high visibility
- 2 rows of cargo loops to attach additional gear
- Soft grip handles
- Card holder
- 4 compression straps

# TECHNICAL

## DETAILS

### Tornado 2 - Medium (32 Litre)

Dimensions: 53cm X 27cm

### Tornado 2 - Large (51 Litre)

Dimensions: 61cm X 32cm

### Tornado 2 - XLarge (82 Litre)

Dimensions: 67cm X 38cm

Enduristan Tornado 2 Soft Grip Handle.

Enduristan Tornado 2 high visibility interior.

# ROK STRAPS

## SECURE YOUR BELONGINGS

### ROKstraps

ROKstraps are the strongest tie-down stretch straps available today. The core is 100% natural rubber for optimum elasticity and tear resistance beyond 100kg.

It is protected by polyester braiding for superior UV and wear resistance. Their unique and adaptable design works in perfect harmony with Enduristan products thus enhancing your travel experience.

## FOCUSED ON ADVENTURE

### Optimized for Adventure Bikes:

The Enduristan ROKstraps have been optimised for use on adventure bikes - thanks to the new design they even fit neatly onto luggage racks with thin slots.

## TECHNICAL DETAILS

### ROKstraps

Adjustment range: 400-1400mm

Strap width: 25mm

Contains 2 pieces

# XS BASE PACKS

## READY TO RIDE

### More Space

Extend the volume of your Monsoon Saddle Bags, Tornados, Typhoons or aluminium panniers by adding one or more XS Base Packs.

## RIDE HARD TRAVEL LIGHT

### Reducing your Weight

Simply attach the XS Base Pack directly to the rear of your bike or alternatively your luggage rack and travel light.

## WEATHER PROOF

### Enduring the Elements

The all-welded design, waterproof 3-layer fabric and rolltop closure ensures that the XS Base Pack is 100% water, mud, snow and dust proof.

# XS BASE PACKS

## FEATURES

- Red inner liner for high visibility
- Outside heavy duty mesh pocket with Velcro lock
- Elasticated netting storage
- Cargo loops to attach additional gear
- 2 compression straps
- 2 tie-down straps for safe attachment
- Stainless steel hardware for mounting on to the rear of your bike

*KTM 990 Adventure with the Enduristan XS 6.5 connected to the Enduristan Tornado 2 XL.*

# ICON REFERENCE

Our new 3-layer fabric is a supreme high-tech product. The outer layer of extremely abrasion resistant polymer protects your belongings whilst the inner layer is made of high visibility red vinyl. In between a 1000D Nylon mesh is embedded. The mesh is densely woven yet flexible to allow the 1000D Nylon filaments to align in the direction of the stress for maximum tear resistance.

420D Nylon is used for the isolation bags where the core focus is flexibility and minimal weight. To make the bags waterproof, oil and fuel resistant, the fabric is double-side coated with environmentally friendly TPU.

The products with this icon are 100% mud, snow, dust and water proof due to TPU-laminated fabrics, an all-welded construction and covered zippers / rolltop closures.

The products with this icon are 100% mud, snow and dust proof due to TPU-laminated fabrics, all-welded construction and water-repellent zippers.

ROKstraps are heavy duty stretch straps invented in Australia. The core is 100% natural rubber for optimum elasticity and tear resistance above 100kg. It is protected by a polyester braiding for superior UV and wear resistance.

We only use YKK's most robust coil zippers. Coil zippers are simply the best solution if you have to deal with sand and dust. The Tankbag's main zippers are an impressive size 8, whilst the side pockets and Belt Packs are fitted with hefty size 5 zippers.

We use the toughest buckles available on the market. How do we know? We tested them. We pulled hundreds of buckles to pieces under any condition you may experience during your travels: Hot, cold and soaked with water. We use the family buckles for all of our products to ensure maximum compatibility.

Exhaust systems can get as hot as 650°C (1200°F). Only a small distance between the muffler and luggage is enough to let the heat dissipate. Additionally, the forced convection of the airflow will further improve the cooling capacity.

Thought-out functionality, attractive design and ergonomics are key to outstanding products. The Swiss product development office Flink is known for innovative solutions and was awarded with numerous international design awards - that's why we develop our products together with Flink.
