\* I modelli contrassegnati con asterisco sono compatibili per uso solo come caricabatteria e si sconsiglia di lasciarli collegati per periodi indefiniti di tempo come mantenitori di carica poiché la curva mantenimento riduce sensibilmente la durata delle batterie al litio.

\*Models marked with an asterisk are compatible for charge use only and you should never leave them connected for indefinite periods of time as maintainers, as the retention curve considerably reduces the life of lithium batteries

\*\*I caricabatterie Aliant consigliati per le batterie di avviamento moto sono il CB1203 e CB1203+KIT. L'utilizzo dei caricabatterie CB1210 e CB1210+KIT è indicato per clientela professionale e se ne suggerisce l'utilizzo solo in caso di effettiva necessità di ricarica rapida.

\*\* The recommended Aliant chargers for motorcycle starter batteries are the CB1203 and CB1203 + KIT. The use of CB1210 and CB1210 + KIT charger is suitable for professional customers, and it is recommended only when really quick charge is needed.

\*\*\*Si consiglia l'utilizzo del caricabatteria/mantenitore di carica CB1203 e CB1203+KIT per le batterie YLP05/05B/07/09X/09B
